WELCOME

The Centre for Heart Lung Innovation (HLI), previously known as iCAPTURE and the James Hogg Research Centre, was established as the Pulmonary Research Laboratory in 1977 by Drs. James Hogg (2013 Gairdner Wightman Award Winner) and Peter Paré. Since then it has grown dramatically in scope, size, and worldwide impact. Basic and clinician scientists work together in an exciting multidisciplinary environment to address vital issues in heart, lung, and critical care disease. Situated within Providence Health Care's St. Paul's Hospital, a University of British Columbia teaching hospital, the HLI is a translational research centre using our basic molecular and cellular research discoveries to develop innovative approaches to prevent and treat human disease through our complementary and connected clinical research.

Our focus is on developing solutions to big challenges: atherosclerosis and heart failure, emphysema and other chronic pulmonary diseases, severe infections such as COVID-19 and multiple organ failure. These diseases are leading causes of morbidity, mortality, and cost to society in Canada and the world. We seek out the underlying causes so that we can develop strategies for prevention and treatment. We link our basic discoveries to improved health care through clinical research, teaching, and by translating new knowledge into clinical practice at St. Paul's Hospital and around the globe. Since disease involves both the patient and the environment, our focus on prevention seeks to understand and prevent those patient-environment interactions that lead to disease and disability.

The Centre for Heart Lung Innovation has a unique multidisciplinary milieu that takes the best attributes of a busy tertiary care hospital (St. Paul's) and combines them with the best attributes of a leading academic institution (UBC) to generate novel insight, knowledge, and solutions. It is not uncommon within the HLI to find a mathematician, a pathologist, a surgeon, and a basic scientist, joining forces to attack otherwise intractable problems. We link basic science with clinical innovation; we link a broad knowledge of inflammation with focused investigation into heart, lung, and critical care disease; we link universities, faculties, and departments together to innovate in ways that otherwise are not possible.

Dr. Don Sin

VISION

Inspired by patients and driven by science, we discover solutions to improve the heart and lung health of the people of British Columbia, Canada and throughout the world.

MISSION

The Centre for Heart Lung Innovation attracts, supports, and connects world class researchers to discover patient-centered therapeutic and biomarker solutions to improve cardiovascular and respiratory health.

VALUES

Excellence — we make impactful and meaningful contributions to research and education by taking a patient-centered innovative approach.

Innovation — we value novel ideas and approaches to solving the most challenging heart and lung health problems.

Integrity — we ensure that our research and work relationships are driven by ethics and honesty.

Compassion — we are advocates for health and show empathy and respect towards others.

Collaboration — we take a diverse interdisciplinary approach to discovering and expanding knowledge through our key partners.

Equity — we are committed to integrating diverse perspectives and approaches that promote a culture of respect, fairness and inclusivity.

FIRST DAY CHECKLIST

Congratulations on being the newest member of HLI! The first day might be daunting, but it doesn't have to be. Depending on your project, you may need to attend additional training.

For more information, contact your lab manager or supervisor, or reach out to our workplace operations director, Claire Smits.

E claire.smits@hli.ubc.ca

INSTITUTIONAL TRAINING

Self-enroll in the following mandatory modules at your university (UBC, SFU, etc)

- Worker Safety Orientation
- Preventing and Addressing Workplace Bullying and Harassment
- Workplace Violence Prevention
- Privacy and Informational Security (part I & II)
- Introduction to Laboratory Safety (for lab placements 4 months or less)
- Chemical Safety Course (mandatory for all wet lab work)
- Biological Safety Course (mandatory for all wet lab work)
- Radioisotope Safety Course (mandatory for radioisotope work)

HLI TRAINING

Self-enroll in the following mandatory courses at HLI

- PI/core lab specific orientation
- Tissue Culture Orientation (mandatory for all tissue culture work)
- Transportation of Dangerous Goods by Ground and Air + Class 6.2—infectious substances (mandatory for shipping human specimens)

HUMAN ETHICS

Self-enroll if your project is related to clinical research

- Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans Course on Research Ethics (TCPS2: CORE 2022)
- VCH & PHC Privacy Training
- VCH & PHC Confidentiality Undertaking for Researchers

ADDITIONAL RESOURCES

UBC—GRAD STUDENT ORIENTATION RESOURCE

This page contains resources for domestic, international and indigenous students ranging from living on campus to career and professional development.

SFU—GRAD STUDENT ORIENTATION RESOURCE

This page contains resources for domestic and international students ranging from scholarship opportunities, the academic calendar, and health & wellbeing.

OFF-CAMPUS HOUSING

This page contains resources for everyone looking for reliable housing in Vancouver.

STUDENT LIFESTYLE

Looking for social events or discounted packages to explore what Vancouver has to offer? The UBC GSS provide opportunities for you to immerse yourself in Vancouver culture while being able to meet other grad students outside of HLI.

VANCOUVER LIFESTYLE

An alternative to the UBC GSS is Let's Adventure Vancouver. Their meetup events provide you with a way to make friends in Vancouver while exploring what the city has to offer all year round.

LOOKING TO GET INVOLVED

EDUCATION

The training, environment and education committee aims to enhance the working environment by creating a positive, synergistic and collaborative atmosphere between staff and students.

E education@hli.ubc.ca

COMMUNICATIONS

The communication committee aims to foster academic community by promoting and enhancing the dissemination of research performed at HLI.

E communications@hli.ubc.ca

EDI

The equity, diversity and inclusion (EDI) committee implements educational programs to empower all members and provide leadership at HLI in areas of professionalism, anti-racism and anti-discrimination.

E edi@hli.ubc.ca

TRAINEE ASSOCIATION

The trainee association aims to enhance the training environment by promoting wellness and connection, creating opportunities for professional growth, and providing education in support of academic and career success through mentorship and scholarship.

E trainees@hli.ubc.ca

TAKE SOME TIME TO YOURSELF

Work can be frustrating and wear you down, but that doesn't mean you have to face it alone. Reach out and get the help you need. Below are some resources from HLI, UBC and SFU available to staff and students. If you have an idea for a workplace wellbeing initiative, reach out to our workplace well-being ambassador, Beth Whalen.

E beth.whelen@hli.ubc.ca

MENTAL HEALTH

Need someone to talk to? UBC and SFU offer 24/7 mental health support lines to staff and student to talk to professionals anonymously and confidentially.

ANNUAL • EVENTS

HLI values community and hosts numerous annual events, ranging from professional development to holiday celebrations. Keep an eye out for the next event in your inbox or subscribe to the HLI calendar on pg 13

LUNAR NEW YEAR

February — Welcome the arrival of spring and the start of the lunisolar calendar through good company and festivities. While this event is wildly celebrated in East Asia, the invitation is open to everyone.

PINK SHIRT DAY

February — At HLI, bullying is not tolerated. That's why we proudly celebrate pink shirt day to promote courage and stand against bullying.

SUMMER BBQ

July — Want a break from the lab and soak in the sun? Every summer, HLI hosts an outdoor BBQ event where you can enjoy grilled meat or vegan burgers and hotdogs with your labmates and all members of HLI. It's a great opportunity to meet everyone and participate in exciting outdoor summer activities.

HEALTH & SAFETY

July & August — Want to learn how to prioritize safety for yourself and others followed by indulging sweet treats during a hot summer day? Health & Safety program is filled with exciting workshops that aim to teach and raise awareness in wellness and safety. This event typically occurs in the latter half of the summer.

RESEARCH DAY

August — Research day is a day long event that occurs at end of summer. This event provides summer students an opportunity to showcase their exciting projects through an oral or poster presentation. This is a great way to see all the interesting and complex work that happens in all the different labs at HLI!

HALLOWEEN

October — What's more exciting than getting that P-value < 0.05? Treats, of course! Grab your labmates and dress up in your spookiest or funniest costumes.

WINTER PARTY

December — Celebrate the holidays with your labmates and join us for our annual winter parties filled with laughter and merrymaking over good company and food.

COMMUNITY • EVENTS

HLI also hosts many other events to build community within the facility. Be sure to keep an eye out for these exciting events as well! Subscribe to the HLI calendar on pg 13.

CARDIO

Looking to feel energized? At HLI, we host several dynamic physical events that are available to all levels. Join us in one of our events to learn more about mental and physical health while also enjoying a laugh or two with your buddies. These events will surely get your heart pumping and lungs working.

BIKING

Looking for a challenge while also contributing to a good cause? Open to all levels, join our biking team and experience Vancouver in a new perspective on the open roads.

SOCCER

Soccer is also a great way to keep active. Grab your labmates for a friendly competition underneath the beautiful Vancouver skies.

COOKING

Food is more delicious when you make it with friends. You don't have to be Gordon Ramsay to participate! Learn how to make delicious, healthy meals with your labmates and other HLI members.

VAISAKHI AND NOWRUZ

At HLI, we also welcome spring by celebrating an important date in the Sikh and Persian calendar. Vaisakhi is a harvest festival that marks the ripening of the rabi harvest while Nowruz marks the astronomical vernal equinox and the first day of the Iranian Solar Hijri calendar. Invite your labmates and come celebrate with us through food, song and dance!

SUN RUN

Craving a way to run away from the rainy weather? Open to all levels, join us in the annual Vancouver Sun Run and contribute to a good cause.

SNOWSHOE HIKE

Active life isn't just limited to summer. Here at HLI, we also host activities that'll keep you warm throughout the winter. Open to all levels, join us and take trips out of the city and enjoy the breathtaking views nature has to offer while enjoying the company of other HLI members over a cup of hot tea or chocolate. Just be sure to bring a warm jacket and waterproof pants!

CALENDAR SUBSCRIPTION

To keep up to date with on-going HLI events and excitement, subscribe to the online calendar below. The QR code provides ical links which can be copied and pasted onto your preferred calendar system (ie. Outlook, Google or Apple Calendar, etc...). Manual links are also provided below.

This calendar comprises of educational events such as Research in Progress Series(RIP), Structure and Function Seminar (S&F), pathology courses (PATH), as well as Friday seminars.

W: <https://ics.teamup.com/feed/ksrjdg4mtm3xvxkcgz/12959361.ics>

This calendar contains EDI-related events such as social events to raise awareness for minority groups and educational workshops for creating inclusive spaces and establishing meaningful relationships.

W: <https://ics.teamup.com/feed/ksrjdg4mtm3xvxkcgz/12959355.ics>

This calendar contains trainee associate events such as social activities & development workshops.

EVENT CHECKLIST

Got an idea for hosting an HLI event? Refer to the checklist below to help guide you to a successful event. For any questions, reach out to either the TEE, EDI or TAHLI committee.

E education@hli.ubc.ca

E edi@hli.ubc.ca

E trainees@hli.ubc.ca

PRE-EVENT

- Food: cater different options for people with food sensitivities and preferences (ie. vegetarian, vegan, gluten-free, nut-free, dairy-free, etc)
- Advertisement: send promotional material with information about the event to reception@hli.ubc.ca (ie. dates, location, etc)
- Room logistics: book the venue and necessary materials (ie. chairs, attendance sheets, tables, etc)
- Volunteers: recruit individuals to help with the event (ie. MC, setup, clean-up, support buddy, photographers, etc)

ROOM
BOOK

DAY OF EVENT

- Food: ensure food are labeled with food sensitivities. If you can, include the ingredients
- Photography: let guests know if you're recording or taking pictures prior to starting. If space allows, setup an area for no-photograph zone
- MC: initiate the event, provide opening and closing remarks (ie. Land acknowledgement, speaker introductions, etc)

POST EVENT

- Clean-up: return all borrowed materials, pick-up any trash and bring any leftovers to the lunchroom

LOCAL EATERIES

Whether you're looking for a delicious, affordable and healthy meal after a series of experiments or catering for the next event, look no further than the list below for some exciting local cuisines.

Other options also include the local farmer's market and if you're a UBC student, you can also enjoy fresh goods on campus.

LETTER FROM THE EDITOR

Starting a new chapter is exciting and thrilling but can also be equally as daunting. That's how I felt when I first started at HLI. With so many new events and exciting workshops, it's sometimes hard to keep up. This is why I've decided to design this magazine as a place to give incoming members a glimpse of the many resources and opportunity the center can offer. This guide is not meant to be a holy grail but rather another resource to help guide your way towards the supportive community at HLI.

I would like to give a huge thanks to the following list of incredible and talented people for helping contribute to the first issue of the HLI starter guide and making all of this happen: Aileen Hsieh, Arianne Brown, Basak Sahin, Beth Whalen, Bradley Quon, Brandon Kohlen, Chris Robinson, Claire Smits, Dean English, Don Sin, Elizabeth Guinto, Eric Xiang, Evan Phillips, Fatemeh Aminazadeh, Firoozeh Gerayeli, Graeme Koelwyn, Gurpreet Singhera, Hattie Luo, Ivan Leversage, Jeremy Parker, Josie Tuong, Kate Huang, Michael Wu, Mike Pratas, Raveen Badval, Sarah Bradwell, Scott Tebbutt, Vivienne Chan and Zachary Laksman. Without these wonderful people, none of this would be possible.

I'm so grateful to have had this opportunity to learn and grow and I hope you all enjoy this resource and have an amazing time at HLI.
