

## Bio-Rad V3 Western Workflow™ Seminar and Demonstration

**Wednesday, June 15, 2022**

**10:30AM – 12:00 PM**

**Gourlay Conference Room – HLI – St. Paul's Hospital**

Contact: Gurpreet Singhera

A discussion on the principals of Western Blotting. Best practices, and optimization techniques. Plus, an introduction to Bio-Rad's New V3 Western Workflow – Visualize / Validate / Verify Achieving sample quality assurance with unsurpassed speed and reproducibility.

### Seminar

**Improving the Speed and Reliability of Western Blotting — New Stain-Free Technology Ensures Quality and Offers an Alternative Protein Normalization Method for Western Blot Analysis**

Presented by: Dr. Ilya Grigoryev, Ph.D., Bio-Rad Laboratories

"Are you tired of leaking gels, long run and transfer times, tedious gel and membrane staining, and the necessity to strip and reprobe or cut your blots? Save yourself the inconvenience and up to 11 hours of lab time by switching to the Bio-Rad Stain-Free Western Blotting protocol. Learn more during the talk."

**TREATS and COFFEE will be provided**
