

Bio-**Rad's** ChemiDoc MP Imager is on demonstration at the UBC – Centre for Heart Lung Innovation from April 18 – May 3, 2024. Please take this opportunity to discover the excellent images this system is capable of capturing.

Compatible Applications include:

**Blot Detection:**

- Multiplex Fluorescence
- Chemiluminescence
- SYPRO RUBY Blots
- Colorimetric Blots
- Stain-Free Blots

**Nucleic Acid Detection**

- Ethidium Bromide
- SYBR Green I or SYBR Safe Dye
- Fast Blast DNA Stain

Please join us on Thursday, April 18 at 10:00 AM in the conference room for a live demonstration provided by Dr. Ilya Grigoryev, Bio-Rad Field Application Scientist.
