Centre for Heart Lung Innovation Seminar Series

The p-value is dead, long live the p-value! A cautionary tale of statistical inference

John Best, PhD
University Research Associate, Department of Gerontology, Simon Fraser University
Biostatistician, Department of Psychiatry, University of British Columbia

Friday Oct 9th, 11:30 – 12:30 PM

ZOOM Virtual Seminar

(Meeting ID: 684 2590 1540; Passcode: 186008)

Hosted by Mari DeMarco

“We often look to the p-value to make statistical inferences about the world. This talk will discuss the factors that can influence the quality of our statistical inferences, how to interpret p-values, and how p-values can be misused, thus leading to findings that do not replicate.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
