Centre for Heart Lung Innovation Seminar Series

Targeting airway smooth contraction for asthma therapy

Ramaswamy Krishnan
Assistant Professor in Emergency Medicine,
Harvard Medical School

Friday Mar 6th, 11:30 – 12:30 PM

Conference Room 6

Providence Bldg, Level 1

St. Paul's Hospital, 1081 Burrard St

Hosted by Chun Seow

“The prevalence and disability associated with acute airway narrowing in asthma highlights an unmet therapeutic need. To meet this need, I will focus on the central role of airway smooth muscle (ASM) contraction and describe a novel hit-to-validation approach for bronchodilator drug discovery.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
