*“Seismic shifts in the academy, our society and planet, and in graduate career outcomes have led to a fundamental ‘reimagining’ of the purposes and central core of graduate and postdoctoral education. We will describe the UBC graduate school’s efforts in this area, in particular the Public Scholars Initiative, and offer concrete suggestions for engaging in this initiative and its broader focus.”*

*This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada*
