Centre for Heart Lung Innovation Seminar Series

Single Cell Approaches to Understanding Cardiac Development and Regeneration

Sean M. Wu, M.D. Ph.D.
Joan and Sanford I. Weill Scholar and Associate Director
Stanford Cardiovascular Institute
Associate Professor of Medicine
Stanford University School of Medicine

Friday May 7th, 11:30 – 12:30 PM

ZOOM Virtual Seminar

(ZOOM Meeting ID: 662 2255 0438; passcode: 623137)

Hosted by Leili Rohani

“Recent advances in single cell omic technology has transformed our ability to understand how individual cells contribute to whole organ responses in development and disease. Leveraging this technology we have gained new insights in the biology of single ventricle congenital heart disease and in fetal and neonatal cardiomyocyte proliferation.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
