Centre for Heart Lung Innovation Seminar Series

All Roads Lead to AATHEN: the UBC Advanced Angiotensin Therapeutics Network

Pascal Bernatchez, PhD

Associate Professor of Pharmacology
Principal Investigator, HLI
University of British Columbia

Friday, May 27th; 11:30 – 12:30 p.m.

ZOOM Virtual Seminar

(Meeting ID: 662 2255 0438; Passcode: 623137)

Hosted by HLI

“Angiotensin receptor blockers are well-established anti-hypertensive medications with a long list of therapeutic effects in non-blood pressure-related diseases. The multi-Centre, tri-Faculty UBC Advanced Angiotensin Therapeutics Network (AATHEN) was created to fast-track the optimization of the pleiotropic properties of angiotensin receptor blockers, develop non-blood pressure lowering analog compounds and identify a new generation of biomarkers of therapeutic pleiotropism.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
