Molecular Tools for Assessing Allograft Health: A 21st Century Approach to Transplant Diagnostics

Paul J Hanson, Ph.D.
CareDx
Medical Science Liaison
Los Angeles Brisbane, CA

Friday December 9th, 11:30 – 12:30 PM
James Hogg Conference Centre (JHCC) Room 103
(ZOOM Meeting ID: 662 2255 0438; passcode: 623137)

Hosted by Gurpreet Singhera & Amrit Samra

“Long-term graft outcomes remain a significant challenge in the field of solid organ transplantation. Emerging non-invasive molecular biomarkers may alter the current paradigm of post-transplant surveillance by allowing early detection of graft injury, thus opening the door to early intervention and the potential to prolong graft survival.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
