

Centre for Heart Lung Innovation Seminar Series

Epigenetic age in the assessment of clinical outcomes in Chronic Obstructive Pulmonary Disease

Ana Hernandez Ph.D.

PostDoctoral Fellow Centre for Heart Lung Innovation University of British Columbia

Friday, March 18th; 11:30 – 12:30 p.m. ZOOM Virtual Seminar (Meeting ID: 662 2255 0438; Passcode: 623137)

Hosted by Dr Don Sin

"Ageing is the leading risk factor for Chronic Obstructive Pulmonary Disease (COPD). There has been tremendous progress in the measurement of "biological" ageing using blood-based biomarkers. The most promising are those related to epigenetic changes in the DNA of circulating immune cells. In this talk we will explore the use of epigenetic biomarkers of ageing in COPD"

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
