Centre for Heart Lung Innovation Seminar Series

Is stem cell society peaceful?

Nika Shakiba, Ph.D.

Assistant Professor
School of Biomedical Engineering (SBME)
University of British Columbia

Friday, April 1st; 11:30 – 12:30 p.m.

ZOOM Virtual Seminar

**(Meeting ID: 662 2255 0438; Passcode:
623137)**

Hosted by Dr Leili Rohani

“Pluripotent stem cells (PSCs) have the ability to multiply and differentiate into all cell types of the body. While seemingly peaceful, PSC culture is in fact riddled with riots – cells turn on their neighbours to fight to the death. I will explore efforts to understand PSC conflict, providing a new window into how to better control PSCs for regenerative medicine.”

This event is a Self-Approved Group Learning Activity as defined by the Maintenance Certification Program of the Royal College of Physicians and Surgeons of Canada
